Rosedale's EVERGREENS

Plant them now for very best results. There is an advantage in Fall planting and also an advantage in Fall prices. We offer at this time more variety in all sizes than previously in many years.

JAPANESE YEW

TAXUS CUSPIDATA, Spreading Form

Definitely one of the hardiest of evergreens, with a dark green foliage admired by all. Bears red berries in Fall. Most suitable for hedge or specimen planting.

1½ ft. spread.....	\$1.75
2 ft. spread.....	2.50
2½ ft. spread.....	4.00
3 ft. spread.....	6.00
3½ ft. spread.....	9.00

TAXUS CAPITATA, Upright Form

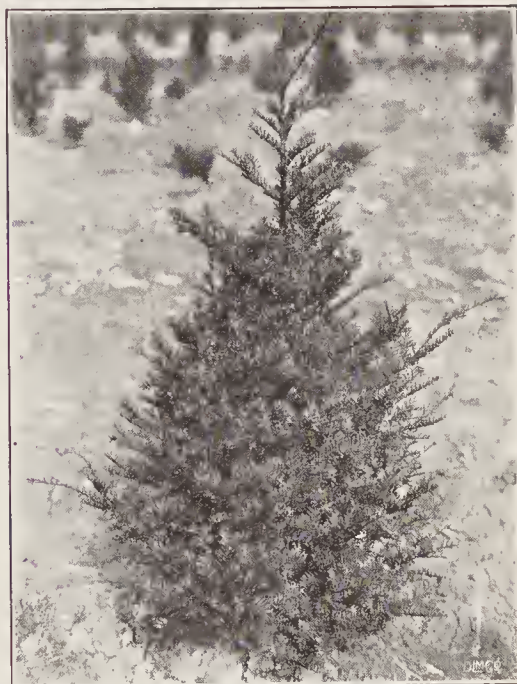

1½ ft. height.....	\$2.00
2 ft. height.....	2.75
2½ ft. height.....	4.00
3 ft. height.....	6.00
3½ ft. height.....	7.50
4 ft. height.....	9.00
4½ ft. height.....	12.00

HICKS YEW

(TAXUS HICKSI)

An interesting form of the most useful Taxus family. Exceptionally dark green needles. Grows in an upright, columnar shape.

2 to 2½ ft.....	Each \$4.00
2½ to 3 ft.....	5.00
3 to 4 ft.....	9.00

Taxus Capitata

HUNNEWELL YEW

(TAXUS HUNNEWELLIANA)

Somewhat similar to Japanese Yew, except for a more uniform, perfect vase shape. Very fine for foundation planting or low hedges.

18 to 24 in.....	Each \$3.00
2 to 2½ ft.....	5.00
2½ to 3 ft.....	6.50

GERMAN, JAPANESE AND DWARF IRIS

Space does not permit a listing of Iris at this time. However, we have to offer 75 of the finest varieties and visitors at the nursery will be pleased at the tremendous vigor and healthy appearance of these plants in the beds. A complete list will be mailed on request.

PHLOX AND HEMEROCALLIS

These most useful of plants are described in our general catalog. If you have mislaid your copy, just drop us a card and one will be mailed you promptly.

Taxus Cuspidata

KOSTER BLUE SPRUCE

(PUNGENS KOSTERIANA)

Similar in growth and form to above, but much more blue and striking.

2 to 2½ ft.....	Each \$4.00
2½ to 3 ft.....	5.00
3 to 4 ft.....	8.50
4 to 5 ft.....	10.00

White Pine

WHITE PINE

(PINUS STROBUS)

This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. Whether we consider its economic importance, its adaptability to climate and soil, or its ornamental use, we must give it chief place among our native Pines. No other evergreen fulfills so well the requirements for rapid growth, beauty, and harmony in the landscape and quick effect as a screen, and none transplants more easily. Our large specimens 35 feet high and 18 feet broad, may be moved with perfect safety. All our stock has been carefully sheared into sturdy, compact form.

6 to 7 ft...	\$7.50 ea.	8 to 9 ft...	\$15.00 ea.
7 to 8 ft...	10.00 ea.	9 to 10 ft..	17.50 ea.
Specimens, 12 to 40 ft \$25.00 to \$250.00 ea.			

HEMLOCK

WEeping HEMLOCK

(TSUGA CANADENSIS SARGENTI)

Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent.

1½ to 2 ft.....	Each \$5.00
2 to 2½ ft.....	7.50
3 to 4 ft.....	12.00
4 to 4½ ft.....	15.00

CANADIAN HEMLOCK

Our fastest selling evergreen. We offer only heavy sheared trees which are incomparably better than unsheared and seldom transplanted stock. Plant this Fall and save.

3 ft. trees.....	Each \$2.25
4 ft. trees.....	3.50
5 ft. trees.....	5.00
6 ft. trees.....	6.00
7 ft. trees.....	8.50
8 to 35 ft. specimens quoted on request

PEONIES OUR SPECIALTY

For over thirty years Peonies have been a leading specialty here at Rosedale. New varieties have been added continually over this period of years and inferior sorts are promptly discarded, so that we might offer you large plants of the best sorts, rather than the largest list of varieties. You can select from the varieties listed here with confidence that every plant, with care, will produce exhibition blooms.

Plant in September, October, or November, September preferred. Prepare your soil by spading deep 18 inches or more in advance of planting date. Fertilize with pulverized sheep manure and bonemeal, in equal quantities and give a light application of wood ash on the surface in early Spring.

Plant **APPLE** and **PEAR** TREES

this Fall...

Clapp's Favorite

Fall planting is advised for these two fruits by practically every authority. You will gain practically a year in growth due to earlier starting in the Spring.

We offer a time-tested list of Fruit Trees. Every planting should include at least a few of these. Many are as beautiful in blossom as the finest ornamentals, and all bear fruit which is incomparably better in flavor than that purchased in the markets, which must, of necessity, be picked green.

There is, this year, a great scarcity of Fruit Trees, with many nurseries offering only 1 year-old stock. Notwithstanding we are able to offer this Fall, 4 year-old, 6 to 7 ft. Apples and Pears in varieties of known hardiness and superior flavor.

PEARS

CLAPP'S FAVORITE PEARS

Popular, large Pear similar to Bartlett, ripening a week or two earlier.

Other Varieties in 2-year-old size only

APPLES

One of the most satisfactory of all lawn trees is a well proportioned apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

4-year-old trees, 6 to 7 feet, transplanted to develop a fibrous root system
(Propagated from bearing orchards of superior strains)

GRAVENSTEIN

A delicious red and yellow Autumn Apple of superb cooking quality. Well known old favorite.

All 4 year old trees \$2.00 each

Stayman Winesap

NORTHERN SPY

Winter Apple of unsurpassed flavor; large, bright red. Keeps well and bears well. Winter.

RED ASTRACHAN

Early, bright red, Summer Apple. Fine tart flavor. Quick growing and early bearing. Summer.

STAYMAN WINESAP

Medium size; yellow ground, covered with red; flesh fine, crisp and high flavored. Reliable heavy bearer. Keeps very well. Winter.

WEALTHY

Medium size, red and yellow, fine flavor, juicy and crisp. Fall. Bears young and consistently. Autumn.

YELLOW TRANSPARENT

Bright greenish yellow. Early Summer Apple of good quality for eating and cooking.

Yellow Transparent
